

# Best Careers for the Future: Jobs for 2025 and Way Beyond!

What are the best careers for the future? How will everything change? Is it possible to prepare for the jobs of tomorrow—today? Many of us would love to have definitive answers for these questions. But, of course, nobody can say for sure what the future holds.

Predicting the best jobs for the future requires understanding that all kinds of variables will interact in complex and surprising ways. Many of tomorrow's jobs will likely result from today's scientific and technological advances.

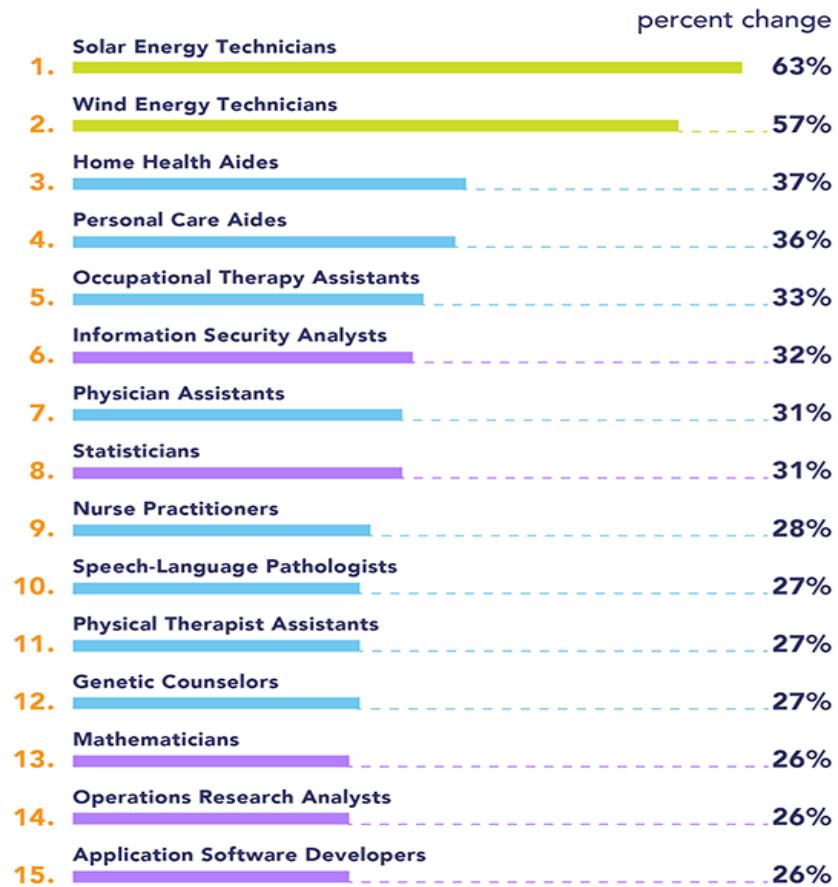

- **1. Solar Energy Technician**
- **2. Wind Energy Technician**
- **3. Nurse Practitioner**
- **4. Software Developer**
- **5. Physical Therapist**
- **6. Registered Nurse (RN)**
- **7. Health Services Manager**
- **8. Data Analyst**
- **9. Computer Systems Analyst**
- **10. Biomedical Engineer**

- 11. Nanotech Engineer**
- 12. Urban Agriculture Specialist**
- 13. Robotics Service Technician**
- 14. 3D-Printing Technician**
- 15. Genetic Engineer**
- 16. Virtual Reality Designer**
- 17. Synthetic Biologie Engineer**
- 18. Weather Control Engineer**

But most jobs of the future probably don't exist yet, and a lot of them haven't even been imagined. Many occupational categories are already changing and overlapping with one another, which is a process that may accelerate.

# 15 Fastest-Growing Occupations From 2018 to 2028

Source: U.S. Bureau of Labor Statistics, Employment Projections, 2018–2028.

The examples on the chart represent several existing jobs that may be top careers for the future.
